With much difficulty I have - The probability of my going to  
France. That she is appointed for all that - for us to go  
to enable us to inform her we are at the Hotel Savoyard  
in Marseilles were from Mr. & Mrs. H. T. - They are  
not out of 14<sup>th</sup> of November. It is very difficult to get  
to Paris by 17<sup>th</sup> for the case of her having to go to France  
with the financial vice corporation. What there  
was no doubt about - The probability of going to  
England. Her - As it is very likely she will not  
be back to France before the 1<sup>st</sup> of December. The prob-  
ability of going Germany. I expect she may go to Berlin.  
Her appointment & all parties for us to go to the  
United States & to come over - The probability and  
possibility of -

Now here are signs. The last day he is gone  
her they are much more brotherly than before & with  
her brother and myself. There was a conversation betwe-  
en Mr. Thomas Chapman, our attorney and his brother  
Wells, you will know him. From which, when he was  
alone with Mr. Chapman. He said that was of the  
week to the 2<sup>nd</sup> or 3<sup>rd</sup> - and the day after -  
Thomas tells the other when he was with him  
looks like he and Frank have made up & become  
brotherly again. There are 2 or 3 hours when  
they are very nice & brother like and signs of sympathy  
there with him are now. There are indications  
that still is hardly divided between her & him &  
and the last few days of them being very like and  
other - with one more brotherly sign. Last  
Wednesday he has been up since 6 o'clock. This week Friday  
evening when I got home he was still there  
it was a school of great sympathy. Went with  
mother than he mostly seems to be for Francis  
Brother mentioned. All the signs to us both are  
other signs for us to go to Europe & to make her  
sister happy.

There is this and signs with many more signs -  
Mother over her own self to him has been much  
sympathetic.

Frank "very well now, excepting his cold  
and Michael is still sick. Simple Cures & will return  
to her side, soon now -

There are still sufferings but less & less & less  
now.

There is now, and I expect with my imagination  
that he is better & the year old to live his life  
and enjoy it well.

There is also some good news to him in England  
and brother to him has been & is again now.

Dear Mr. Thompson & wife & my personal  
best regards and thanks for your very kind and
