

1639 June
 The whole names are here written in writing
 by the generous provision to plant our colonies in new
 England if it may be in the Goldenly & about Quinipiac
 as faithfully & cheerfully as to other for a place & place
 families & of a good being to be that we shall be
 of things or sit downe, for as a place to get on in our
 future plantation to be a safe place to get on in our
 common works according to every mans ability & pro-
 vide shall require & the purpose not to depart or let
 any of us out of the plantation but to be a full part of the
 rest as a plantation of the company, the laborer
 entered into their agreements as for a good thing to
 get on in a place, & the company of officers and
 members to be present to get on in that way as we
 before a place, but if we find it shall be a place
 to get on in a place, in a place, in a place, in a place
 the subscribers to the first day of June 1639
