My sources are

from research

done many

years ago and

not from

Hampton vital

records. One source was from a family group record a lady sent back in

1988. The place of birth for Shadrack Ward and Fanny Ranel was

Rockingham Co., NH. There are several of us working on the Ward line,

we have pooled our information and sources together, but don't have

proof regarding Hampton as their birthplace. I do have a copy of a family

history written back in 1927. That is where the information regarding their

birth at sea, their parents dying at sea and being adopted when they got

to America from Ireland. So perhaps we should just say they were born at sea and leave it at that. From all indications her name was Fanny Ranel and Fanny is probably a nickname for Frances/Francis.
